Looks Fresh, Smells Fresh  
**REFRESH YOUR  
HOME**

**Looks Fresh, Smells Fresh... Refresh Your Home**

The carpets in your home go through a lot, they're always at the heart of the action. Henry Wash revives and refreshes carpets and upholstery, leaving a clean, hygienic and fresh home for you and the family to enjoy.

## Shampoo Carpets **REVIVE YOUR FLOORS**

### **Shampoo Carpets**

Revive your carpets from dull and flat to fresh and fluffy. Henry Wash pumps water mixed with detergent from a specially designed clean water tank to a diffuser, which distributes it evenly across the floor, ensuring complete coverage without oversoaking. The powerful 1060W motor then activates, removing the dirt and moisture, leaving your carpets clean, smelling fresh and feeling fluffy.

# Great Features **MAKE CARPET CLEANING EASY**

## **Great Features**

Cleaning your carpets can be as quick and easy as vacuuming your home. Simply fill the clean tank with water, add Henry detergent, and away you go. Simple as that! Henry's huge capacity and long cable means you are able to clean large rooms without stopping.

## Perfect For **CLEANING HARD-FLOORS**

### **Clean Hard-floors**

Often, mops and steam cleaners don't separate clean and dirty water and simply push dirt around rather than cleaning your floor. Henry Wash takes water and detergent from the clean water tank, breaks down grease and grime, and cleans the floor with his unique dual scrub brush. He then sucks up the water into the dirty water tank, leaving your floors clean, hygienic and touch dry!

# The Can Do **CLEANER**

## **The Can Do Cleaner**

No job is too small or too large - revive carpets, clean hard-floors, refresh the sofa, valet the car, suck-up spills and even unblock the sink! Henry Wash is a true partner in the home, helping to make a clean, safe and comfortable home for you and the family, as well as helping with the odd domestic emergency. Henry Wash, The Can Do Cleaner.
